

Golf: is a precision club and ball sport, in which competing players (or golfers) use many types of clubs to hit balls into a series of holes on a golf course using the fewest number of strokes. Golf is defined, in the rules of golf, as "playing a ball with a club from the teeing ground into the hole by a stroke or successive strokes in accordance with the Rules."

It is one of the few ball games that do not require a standardized playing area. Instead, the game is played on a "course", generally consisting of an arranged progression of either 9 or 18 "holes". Each hole on the course must contain a "tee box" and a "putting green" with the actual hole, and there are various other standardized forms of terrain in between such as the fairway, rough, and hazards, but each hole on a course and indeed among virtually all courses is unique in its specific layout and arrangement.

Golfing in Kashmir: Kashmir offers a unique opportunity to play golf in invigorating surroundings, where the wind whispers through enormous trees of Chinar and stately pine. In the verdant golf courses at Srinagar, you will be able to play for longer hours than you can in the plains because of the lower temperatures – Srinagar's highest temperature seldom goes above 35°C. During the summers, while the plains are boiling, Srinagar's temperate climate allows the golfer to play longer hours without getting tired. During winters, the courses in Srinagar are closed, only when snowbound.
